Plumbing & Sanitary

Problem

Plumbing and sanitary services in corporates typically involve the installation, maintenance, and repair of water supply systems, drainage systems, and sewage systems within commercial buildings or office spaces. This includes tasks such as fixing leaky pipes, installing new plumbing fixtures etc.

For more info:

anoop.kumar@ati.ltd

04

Solution

Ensuring proper water flow, addressing issues with toilets or sinks, and maintaining overall sanitary conditions within the buildings. These services are essential to ensure the smooth functioning of the water and waste management systems in corporate environments.
